Ex-Congressman Calderhead as Candidate for Governor.

Regulars May Make Him Standard Bearer.

### HISCONSISTENTRECORD

Known as an Opponent of All the "Isms."

Frank Ryan, Railroad Commissioner, Mentioned.

More possible candidates for governor began blessoming today after the an-nouncement in the State Journal that a boom for E. B. Schermerhorn, member of the board of control, had been started by the Beloit Gazette. Two more booms began to be talked around the state house. One of these was a boom of the telegraphers for Frank J. Byan railrand commissioner and the Byan, railroad commissioner, and the other was a boost for W. A. Calderhead

of Marasville.
The Calderhead boom is the one taken most seriously and an effort is to be made by the old regular crowd in the Republian party to get Calderhead to rake the race. The progressives want Congressman Madison to run as their standard bearer. On account of the Curtis-Stubbs senatorial fight the Curtis or the old fregular bunch want a candidate of their own kind.

candidate of their own kind.

Calderhead is a logical man for the place. He has always been a conservative and is a staunch supporter of the high protection idea. He fought free silver and every possible "ism" that the Populists and Democrats dus up and he stood against the revision of the tariff in the face of almost sure de-feat. No one has ever questioned his

Mr. Calderhead has been mentioned several times since he came back from Washington. As far as known he has never discussed the possibility of be-coming a candidate for governor next year. He might do so. There are any number of anti-Saubs followers who are doing everything in their power to get Calderhead into the race. It is possible that Calderhead may be per-suaded to make the race. The fellows ere doing a lot of talking and if they can make a showing that Calderhead has a real chance to win it is believed that he can be persuaded to try the primary campaign.

leads of immigrant goods, including stock, farm implements and household goods, have been unloaded at the Burlington depot here since February. The families to which these goods belonged didn't tarry long here, but they went at once to their farms which they purchased recently. Bird City used to be the county seat of Cheyenne county, and when this town lost the court house the boom went out of the town as well. In the last three years it has been growing nicely, and her population has almost doubled. To show how good the town is doing, and that there is considerable money lying around loose, there are eighteen automobiles owned by peo-ple living on the townsite, and the

Presidency Goes to C. H. Matthews of

Topeka.

Lawrence, Kan., March 29.—One of the most successful and enjoyable conventions ever held by Kansas laundrymen closed yesterday afternoon with an automobile ride over the city. Haskell, the university and Woodland park were visited. Hutchinson was chosen as the next place for the annual gathering. Several other towns asked for the convention, but the Sait City had a strong delegation of boosters here and was easily the favorite. Besides it is the practice of the association to hold the meetings silternately in the eastern and western the association to hold the meetings alternately in the eastern and western part of the state. ENFORCE EIGHT HOUR LAW.

Labor Commissioner Notifies Cities They Must Comply.

W. L. A. Johnson, state labor com-missioner, is sending a letter to all state, county and city officers where public utility plants are municipally owned or operated, notifying them that the eight hour law would be strictly en-forced. The city of Ottawa contended that the eight hour law did not appid to cities owning water and light plants using gas or oil as fuel. The case was taken through the supreme court and it was held that the eight hour law applied to all public work of whatever kind and that if an employee were on duty, even though he worked very little at the end of the eight hours on duty his stunt was ended. In his letter to the officials in charge of the municipal plants Mr. Johnson recites some of the provisions of the law as it was labl down in the supreme court opinion. Continuing, the letter says:

Strictly speaking, Abbatemaggio's
revelations are nothing more than
sidelights in confirmation of his original story as told to the authorities
and published before the trial begun. In his formal statement the informer told how Cuoccolo had been murdered because he had betrayed other mem-bers of the Cammora and also because bers of the Cammora and also because there was jealousy of his increasing power on the part of Enrico Alfano, the actual head of the body, and other leaders. Cuoccolo's wife was killed to conceal the first crime. Asked about the \$200 which had been paid to the assassins of the Cuoccolos, the informer replied that Al/ano had divided the money, giving \$80 to the witness and distributing the remainder among the actual assassins.

The following is from last evening's Kansas City Star:
David W. Mulvane, Republican national committeeman from Kansas and Cattle Steady to Weak at Chicago and K. C.

financier, accompanied by Mrs. Mul-vane, was at the union depot a short time this morning on the way from New York to his home in Topeka. Mr. Mulvane said he gladly would talk poli-tics if there were any politics to talk about Receipts of Hogs Heavy: Prices 5 Cents Lower.

"But," he added earnestly, "I have found a new way to cook chicken. Did you ever taste—chicken au roi? No? That last is French and means according to the king."

It might be mentioned that Mr. Mulvane's hobby is cooking. It is he who prepares the Sunday night supper at his beautiful home in Topeka and lucky are those who are asked to partake of Chef Mulvane's kitchen creations.

"How is the money market at the east?" he was asked.

"Pretty tight, as usual, but looking up some. Now about this chicken a !a king. It's certainly great. Parboil your chicken, then bone it. That is, take out all the bones, you understand. Toss what's left into a pan or a chafing dish, add cream, season with pepper and sait and then—now listen—dash the whole smear with sherry wine. Doesn't that sound good?"

"But where, in Kansas." he was asked, "do you get sherry wine?"

Mr. Mulvane puffed slowly at his cigarette for a few seconds and then asked, "do you get sherry wine?"

Mr. Mulvane puffed slowly at his cigarette for a few seconds and then said, guardedly:

"I was speaking of the way they do it in New York. Don't let's try and jump hurdles till we get to Topeka."

Mrs. Mulvane was asked as to the prevailing colors worn upon women's hats in the east.

Bidding up of selected stocks failed to hold the market and there was a pretty general shading off to below yesterday's closing. Canadian Pacific rose 1; Wiscinsin Central 2, Soo Lane 3 and Wabash preferred 1%. Speculation at 11 o'clock was quiet.

Fears of an early decision in the trust cases had a restrictive effect on speculation and traders also were somewhat disappointed at the failure of the large interests to cary on the rise of yesterday. Much was of an unusual success attending the bidding up of closely held stocks, such as the Canadian group, in which new high records are a daily feature. A new angle was given to the bulge in these stocks today by reports that Canadian Pacific was buying into the Hawley stocks heavily. There was also talk along these line of Lehigh Valley acquiring a large interest in Wabash. The motion introduced into the Pennsylvania legislature to investigate the anthracite industry held the coalers back some, but the selling was very moderate. By midday most of the important stocks were practically on a level with last night's close dealings in convertible bonds were again a marked feature of the early session sales of Atchison, Union Pacific and Norfolk and Western issues of this class constituting a large percentage of the whole.
